HOME HEALTH

**YOU'VE BEEN EXPECTING US.**

**The yellow ribbon has been a symbol of hope, encouragement, and homecoming for centuries. Through the yellow ribbon, soldiers and sweethearts, friends and families, memories and tradition – all reunite at home.**

At Evangeline Home Health, we believe that home truly is where the heart is, and where we feel most comfortable and at peace. It's here, in our familiar surroundings, that we find healing. We understand this bond and we've worked to provide this level of comfort to our patients in their own homes for more than 40 years. We've been welcomed into many homes across South Louisiana, and we've built relationships with the families we've served.

**Our yellow ribbon symbolizes our belief in the value of home, the importance of friendship, and the call to meet your expectations.**

## YOU'VE BEEN EXPECTING US

At Evangeline Home Health, home truly is where the heart is. We understand the bonds of family and we've worked to provide this level of comfort to our patients in their own homes across South Louisiana for more than 40 years.

Apart from our mission and our reach, we've become a national leader in home health.

- We rank among some of the highest patient satisfaction scores in the nation.
- We've trained hundreds of nurses, therapists, and other staff.
- We've created special programs to address specific needs of our patients. Our most widely known program, HomeSight™, has even received attention from the Johns Hopkins University Department of Ophthalmology.

Here at home, we've built relationships with the families who have welcomed us. We believe in the value of home, the importance of friendship, and the call to meet your expectations.

**Evangeline Home Health. You've been expecting us.**
